Licensing of the **HDShredder CLI** Product Family

Products from the HDShredder CLI product family are available under the following license types.

HDShredder CLI Professional Edition
Single License (on request)
Maintenance License (on request)
Online License (on request)

HDShredder CLI Enterprise Edition
Single License (on request)
Maintenance License (on request)
Online License (on request)

Types of Licenses

The license types named above cover different scopes of use as described below.

Single License

A Single License allows for firm installation and permanent use[1)] of the product on one (1) computer belonging to the licensee.

Maintenance License

Allows for use on arbitrary PCs for servicing and maintenance purposes performed by the licensee by using the provided token(s). The software can optionally be firmly installed on each of these PCs, yet a token must be connected while it is being run.

Floating License

Allows for use on arbitrary PCs and servers for servicing and maintenance purposes performed by the licensee via an online token. The software can optionally be installed locally on each of these PCs ors servers, yet an online connection is required while it is being run.

[1)] For time-limited licenses, this only applies for the validity period, which may be extended upon expiration.
